The formula calculates the sum of a range of Fibonacci numbers. $F(n) = F(n-1) + F(n-2)$, with $F(0) = 0$ and $F(1) = 1$. $F(n) = F(n-1) + F(n-2)$

`Rules for Fibonacci Numbers`
`Fibonacci sequence numbers follow a rule according to which, $F_n = F_{n-1} + F_{n-2}$, where $n > 1$. The third Fibonacci number is given as $F_2 = F_1 + F_0$. As we know, $F_0 = 0$ and $F_1 = 1$, the value of $F_2 = 0 + 1 = 1$.`
